

We are looking for adults with Down Syndrome to take part in our research!

we want to see adults of all abilities

we are learning about changes in thinking and health as people get older

in this research you will play some games and puzzles

we will ask your carer or relative some questions about you

we will take some health measurements and a blood sample

we will tell you about other projects you can take part in

please get in touch with **Marie, Fedal, Debbie or Sarah** if you would like to take part or have any questions

Telephone: **0207 848 0843**

Email: **downsyndrome@kcl.ac.uk**
