

Sutton Parents Forum Training Courses

Understanding Behaviour by Adapt to Learn

Adapt to Learn are a new and exciting service, cofounded by Melanie and Tracy who have over 30 years' experience working for Local Authorities in the field of Special Educational Needs. As well as training courses, they offer individual assessments, effective strategies and bespoke interventions.

We are really pleased to be working with Adapt to Learn to offer a new 2 part training course on Understanding Behaviour; you do need to attend both sessions.

These will be delivered by Melanie and Tracy, who many of you will know, and will be an opportunity for parent/carers to gain greater knowledge and understanding of their child or young person's behaviour, how behaviour may link with communication and what we can do to help.

We will look at the potential underlying causes for extreme behaviour and how everyday situations can have an impact on your child or young person.

Strategies will be shared so that families feel more confident and empowered to move forward with positivity.

Session 1

An In-depth look at behaviour

Thursday 10th May, 2018

Church of the Good

Shepherd

Queen Mary's Avenue
